

BITSMO

BITSMO is your all in-one platform for digital currency. A platform more secure and 7x faster than Binance.

ONCE DRIVEN, FOREVER BITSMO

[BTSM]

Our Vision

The Bitsmo Exchange will enable a safe and simple transition from the mass retail market into the crypto market. The Bitsmo Exchange will accommodate a comprehensive growth in adoption and perception of cryptocurrencies and trading, directing to wider use of new cutting edge infrastructure that was not available in this market.

To achieve these visions and set goals, we have not only set aside a means of generating funds, but also a team of experts in the field to ensure that we get the best of everything we intend to achieve. Users can be assured that the technicalities of this project are being by the best of the best and as such losing funds is not a possibility with this platform.

BCN - "BITSMO Community Network"

The term BCN is a new term of an acronym that we created to emphasize our key feature. In order to create a community for a better interactive network, we focused on integrating users and current exchanges for a better communication. BCN allows anyone in the community to interact with crypto-market by increasing their liquidity while decreasing volatility.

BITSMO Platform's Key Features

*BITSMO platform is connected with **30+** of the most popular exchanges to connect you to the best price in the **crypto-market**, in other words, we provide deep order books enabling **BITSMO's** user get the best selling or buying price in the market.

BITSMO's matching engine is capable of processing close to **10 MM transactions per second** which is **10 times faster** than any other exchangers making our platform the fastest in the current market.

BITSMO have employed with the best company with the highest security over keeping the data safe, the Modulus and Bitgo. Additionally BITSMO uses the most advanced security protection used by **NSA, CIA** and **NASA**, and store majority of their funds in funds in "cold" storage.

BITSMO Coin

The BTSM is the official currency of the platform that users can purchase and there will be a strict limit of 200MM BTSM, never to be increased. BTSM coin can be used in paying for transaction fees in the platform as well and coin holders will get 25% transaction fees from our platform weekly. In addition, the coins have holder's value which means BTSM will be exchangeable.
